SUMMARY

Flutter Developer with 1.6+ years of experience specializing in real-time, scalable mobile applications. Proven track record of delivering high-performance apps like cab booking platforms with 50K+ downloads and 4.0★+ ratings. Skilled in Flutter, Firebase, REST APIs, WebSockets, and Google Maps integration. Focused on building user-centric, scalable, and maintainable applications using modern architectures like MVVM and Clean Architecture.

TECHNICAL SKILLS

Languages & Frameworks: Dart | Flutter | Cross-Platform Mobile Development
Backend & APIs: Firebase (Authentication, Firestore, Realtime Database, Firebase Cloud Messaging - FCM) | REST APIs | API Integration | WebSockets
Tools: Git | GitHub | Android Studio | SQLite | Mobile App Deployment
Architecture & Concepts: MVVM | Clean Architecture | MVC | State Management (GetX, Provider, BLoC) | Agile Methodology | UI/UX Principles
Soft Skills: Problem Solving | Team Collaboration | Communication

EXPERIENCE

Flutter Developer, MobilitySUM Technologies Pvt. Ltd. 	09/2025 – Present
- Built and maintained scalable Flutter applications with a focus on performance optimization and seamless user experience - Integrated Firebase (Auth, Firestore, FCM) for backend services - Managed state efficiently using GetX & Provider for better performance - Improved app performance by reducing load time by ~30% through optimized state management and API handling - Collaborated with cross-functional teams to deliver scalable, high-quality features	Remote
Flutter Developer, Labbayk Technologies Pvt Ltd	09/2024 – 08/2025
- Developed real-time cab booking features including live tracking, API integrations, and map-based navigation - Implemented REST APIs & WebSockets for real-time tracking and updates - Integrated Google Maps for live tracking and route optimization - Used GetX & Provider for efficient state management and performance - Enhanced app responsiveness by optimizing API calls and reducing unnecessary UI rebuilds - Collaborated with teams to deliver scalable, user-friendly applications	RAMGARH, Jharkhand

PROJECTS

Hungzo — In Development, Technologies: Flutter, Firebase, REST APIs, Real-time Queue Management

- Built real-time order placement & tracking system for seamless user experience
- Implemented role-based access for secure supplier & buyer operations
- Developed efficient inventory & order management system
- Integrated Firebase Authentication for secure login & data protection

Hungzo Delivery Partner — In Development, Technologies: Flutter, Firebase, RESTful APIs, Geolocation, Payment Integration

- Built real-time order assignment & delivery tracking system for efficient logistics
- Enabled delivery partners to accept, manage, and update orders seamlessly
- Integrated geolocation-based route optimization to improve delivery efficiency
- Developed live delivery status tracking (picked, in-transit, delivered)

- Implemented secure authentication & earnings management for delivery partners

Shalini Cabs – Taxi Booking & Rental Platform *🔗 , Technologies: Flutter, REST APIs, WebSocket, Google Maps API, GetX, Provider*

- Developed a high-performance cab booking app for **Shalini Cabs Private Limited** supporting city, airport, and outstation rides
- Built real-time tracking using REST APIs & WebSockets for seamless booking experience
- Integrated Google Maps for accurate location, routing and navigation
- Designed intuitive UI/UX, driving **50K+ downloads and 4.2★ rating**

Chiku Cab – Online Cab Booking System *🔗 , Technologies: Flutter, REST APIs, WebSocket, Google Maps API, GetX, Provider*

- Built a scalable Flutter-based cab booking app for **Chiku Cab** with real-time tracking using REST APIs & WebSockets
- Integrated Google Maps for live tracking and route optimization
- Designed intuitive UI/UX, contributing to **10K+ downloads and 4.0★ rating** across 250+ cities

Elpers – Home Service Booking Application *🔗 , Technologies: Flutter, Firebase, SQLite, REST APIs, State Management (Provider)*

- Developed a home service booking app connecting users with verified professionals
- Implemented REST APIs for authentication, service listings, and scheduling
- Enabled real-time chat using WebSockets between users and providers
- Designed intuitive UI/UX for seamless booking and transparent pricing

🧩 KEY ACHIEVEMENTS

- Delivered cab booking apps with 50K+ downloads and 4.2★ rating
- Built real-time systems using WebSockets and Google Maps
- Developed scalable Flutter apps used across 250+ cities

🎓 EDUCATION

Maulana Mazharul Haque Arabic and Persian University (MMHAPU), <i>Bachelor of Computer Applications</i>	2024 – Present Patna, Bihar
Edugaon Education and Innovation Labs, <i>Professional Diploma in Software Engineering</i> Patna, Bihar,	2022 – 2024 Patna, Bihar
